

# Arise Above Oppression

## Fear Factory

Rise above, rise above  
Steal away to hide your shame  
Rise above, rise above  
Rise above your oppression  
Above the one that hates you  
Above the one that lies  
Above the one that hates  
Death, fear, rage  
Rise above your depression  
Above the one that kills  
Above the one that hates  
Above all of the pain  
Fear, death, rage  
Rise above, rise above, rise above  
Rise, rise, rise  
Rise above your depression  
Above the pain and suffering  
Above the one that hates you  
And kills you, through all of your life
