

Love Is On My Side

Survivor

So strange when lovers change their mind
To realize the joy left foolishly behind
But I feel secure down in my soul And somehow I know
I know that love is on my side
Deep down I know
I know that love is on my side
And I'm gonna win, yeah Some nights I slip into the past
To better understand why two hearts never last
I just don't know why nights so tender turn so cold And somehow I know
I know that love is on my side
Deep down I know
I know that love is on my side
And I'm gonna win, yeah Walk on, through the night
It's all just a game she plays so well
In time, well I know The tide will be turnin' and she's gonna learn
Shine a light, shine it bright
And time will testify I know I know that love is on my side
Deep down I know
I know that love is on my side
And I'm gonna win, yeah
Somehow I know I know that love is on my side
Deep down I know
I know that love is on my side
And I'm gonna win, yeah Ooh yeah, I know that love is on my side
I know
