Please Come Home for Christmas

Ledisi

Bells will be ringing the glad, glad news
But oh what a Christmas when you have the blues
'Cause my baby's gone and I have no friends
To wish me greetings once againChoirs will be singing 'Silent Night'
And Christmas carols by candlelight
Please come home for Christmas
Please come home for Christmas
And if not for Christmas by New Year's nightFriends and relations send salutations
And sure as the stars shine above
'Cause this is Christmas, Christmas my dear
And it's the time of year to be with the one you loveSo won't you tell me that you never gonna roam?
Christmas and New Years will find you right here at home
And there'll be no more sorrow, no more grief and no more pain
And I'll be happy this Christmas once againOh, so won't you tell me that you never gonna roam?
And Christmas and New Year you gonna bring your butt home
Oh, and there'll be no more sorrow, no more grief and pain
And I'll be happy this Christmas once againPlease come home for Christmas, come home for Christmas
I need you here with me on Christmas
I'm tired of being by myself, tired of being by myself
I don't wanna be by myself no more, yeahI need you to love, love me
I don't wanna be by myself
Oh, will you be home for Christmas?
Please come home for Christmas
Be home for Christmas
