Line By Line

Tim Fite

Now I know how the story goes
The wicked all will die
How do you know it
I just know it
I just know it
Oh I've seen how this whole thing ends
The honest man survives
How do you know it

I just know it
I just know it
Not in line with history
Not in line with make-believe
Line by line
We all scrape by
Line by line
We all scrape by
