

# Line By Line

**Tim Fite**

Now I know how the story goes  
The wicked all will die  
How do you know it  
I just know it  
I just know it  
Oh I've seen how this whole thing ends  
The honest man survives  
How do you know it  
  
I just know it  
I just know it  
Not in line with history  
Not in line with make-believe  
Line by line  
We all scrape by  
Line by line  
We all scrape by
