My Name Is Thanos

Emmure

You don't fucking know me
And you never will
I'm not from this world
I didn't ask to be here
You don't fucking know me
And you never will
I'm not from this world
I didn't ask to be here
Look down at me, you'll see a fool
Look up at me, you'll see your God
Look straight at me and you'll see yourself
I didn't ask to be here

I didn't ask to be here
I didn't ask to be here
I'm not from this world
You don't fucking know me
And you never will
I'm not from this world
I didn't ask to be here
I m not from this world
