

# I Luv That Girl

## All 4 One

I love the way she moves, she grooves, her shoes, she's smooth  
I love her hair, her teeth, her nails, her feet  
I love her laugh, her cry, her lips, her eyes  
She's my future, my world and I love that girl  
I've been feeling like this girl just might be the one  
She got my heart on lock like the warden of a prison, alright, yeah  
And every time we touch I just get all warm inside, oh yeah  
I'm so glad she's mine, listen and I'll tell you why, yes, I will  
I love the way she moves, she grooves, her shoes, she's smooth  
I love her hair, her teeth, her nails, her feet  
I love her laugh, her cry, her lips, her eyes  
She's my future, my world and I love that girl  
She's my only drug, a kiss from her and I'm all strung out, oh yes, I am  
No need for getting help 'cause I know I'm way past that now, oh  
I tell her every day, you won't ever get rid of me, oh yes, no, you won't  
She's got me so open, I ask her for permission to breathe  
I love the way she moves, she grooves, her shoes, she's smooth  
I love her hair, her teeth, her nails, her feet  
I love her laugh, her cry, her lips, her eyes  
She's my future, my world and I love that girl  
I'm gonna be with her until the day we're both old and gray  
And even after that she's still gonna be with me, yeah  
And if I never see nobody else that's alright with me  
'Cause she's the only one that I need, hey  
I love the way she moves, she grooves, her shoes, she's smooth  
I love her hair, her teeth, her nails, her feet  
I love her laugh, her cry, her lips, her eyes  
She's my future, my world and I love that girl  
I love the way she moves, she grooves, her shoes, she's smooth  
I love her hair, her teeth, her nails, her feet  
I love her laugh, her cry, her lips, her eyes  
She's my future, my world and I love that girl  
Can't nobody tell me that I don't love that girl, no, no, no, no  
Yes, I know  
Can't nobody can tell me I don't love that girl, hey
