

In the Middle of Me

[Todd Agnew](#)

Need a little more sunshine in the middle of rain

Need a little more joy in the middle of pain

I need a little more color in the middle of this plain Jane 'Cause I've looked as deep as I can see

And I think I need a little more You in the middle of me Need a little more patience in the middle of stress

Need a little more beauty in the middle of this mess

I need a little more substance in the middle of this emptiness And I've looked as deep as I can see

And I think I need a little more You in the middle of me I need more of You and less of me

More of You and a little less insanity

More of You and a little less complexity 'Cause I've looked as deep as I can see

And it seems more of You is better for me I need a little more rhythm in the middle of this lazy rhyme

Need a little more spontaneity in the middle of this daily grind

Need a little more truth not music in this world of lies 'Cause I've looked as deep as I can see

And I think I need a little more You in the middle of me

In the middle of me, Lord, in the middle
