

Harry Bridges

Rancid

Bloody Thursday was July 6th The pigs killed three workers Harry Bridges
grabbed the mic
The city shut down July 6th The workers outraged it was a
general strike
The media claimed that the commies were taking over and some
believed it was true
3 uncompromising strikes paved the way
Minn
SF. & Toledo
Over and over again the doors are locked and the windows are broken
Eddie
worked for General Motors & he swore that he'd never lose his job again
A
union man who owned his own home in beautiful Flint, Mich. Eddie lost his job
and Eddie lost his wife
So Eddie lost his self esteem Last time I saw Eddie
he was livin' in the trailer park again
I believe Eddie forgave too much
Too
soon
I got a letter about Eddie & it was bad news
