Runaway

iiO

Can we go away and never turn around again?
On an escapade and always keep the visionCan we open out and spread ourselves around the sand?
Captivate the sun, keep the light till the world endsRunaway, runaway
Runaway, runawayTake away the wall and break away my defense
Candle by our side and never let the rain beginRunaway, runaway
Runaway, runawayWe're a part of a plan and it's already written
There is no other way, it's inside our every senseEarth is our island
(Earth is our island)
Earth is our island
(Earth is our island)Runaway, runaway
Runaway, runawayKarma, am I yours is that your intuition
If that is your word, I'm the definitionEarth is our island
(Earth is our island)
Earth is our island
(Earth is our island)Runaway, runaway
Runaway, runawayIn our destinies, this is what was missing
Echo in my mind, even through my distanceRunaway, runaway
Runaway, runawayRunaway, runaway
Runaway, runawayRunaway, runaway
Runaway, runawayWe're a part of a plan and it's already written
Candle by our side and never let the rain begin
