No solidarity  
Can't we find some love and unityI'm talking for the people who don't have a voice,  
burning in their surroundings and don't have a choice.  
None of us have it easy that don't have it nice.  
Facing daily struggles for a handful of rice.  
And the leaders that surround dem ago around dem with lies,  
separating the people with their military ties.  
People are dying like flies,  
don't you think it's time to step in the footsteps of Christ?Chorus II  
Hey!  
Why are we fighting for the leaves,  
when the strength is in the roots?  
Like love is in the truth.  
Destroying all the seeds,  
this is fighting for the fruit,  
while victimizing the youth.Chorus IYou see a new perspective is well necessary.  
Wolf on wall street, Mr. dignitary.  
While you're sipping champagne out there a getting married,  
it's rough out there in the poor territory.  
The life of the sufferer is never ordinary,  
everyday a family have a new child for bury.  
Guns and drugs dem a carry.Chorus IICorus I
