

# Your Soul Is Mine

## Mushroomhead

Very many few can hear me  
and if any two come near me  
Nothing, Everyone and nary  
Find this truly quite Contrary...  
I want to see the light leave your eyes  
Feeling your breath one last time  
I want to see the light leave.  
God rest your soul is mine.  
Digest you whole in time  
Chew up and spit you out  
I hate my words right now!  
Very many few can hear me  
and if any two come near me.  
Vision, wisdom, long division

wipe away your name.  
(I want to see)  
God rest your soul is mine.  
Digest you whole in time  
Chew up and spit you out  
I hate my words right now!  
I want to see the light leave your eyes  
Feeling your breath on my lips one last time  
I want to see the light leave your eyes.  
Feeling your breath for the last time.  
God rest your soul is mine.  
Digest you whole in time  
Chew up and spit you out  
I hate my words right now
