

Real Desire

[Dan Auerbach](#)

I know that you're wanted
but every little thing talks
take your pick and maybe they'll serve you, yeah
but you, you will put them down talk, but never listen
so how you wanna play your game
try to step on me baby
oh, and I will, I will do the same because you want to set the world on fire
little men, we'll never do
made you think i'd be a desire, oh darling
oh I, I see right through Clouded skies have lifted
and voices ring out from the wire
if you'll say you never meant to hurt me, no
oh you would be a liar Because you want to set the world on fire
and a little man will never do
made you think I'd be a desire, oh darling
you know I see right through
