

# Walkin' Away

## Diamond Rio

Sometimes a careless word just rolls right off my tongue  
Now matter what I do it leaves you all undone  
Hey baby, no need to go crazy over some little something I've said  
Can't you see you're the keeper of my heart  
Even when I lose my head We've still got it good, no matter how bad it gets  
Even after all this time, the slipper still fits  
Hey, just look at how far we've come by choosing to stay  
Baby, don't go there, love don't get nowhere walkin' away Sometimes the whisper of love gets lost in that angry  
shout  
Even hearts that are in this deep might think about an easy way out  
One honest touch makes those worries just fade like stars at dawn  
These occasional moments of weakness  
Only makes our love more strong We've still got it good, no matter how bad it gets  
Even after all this time, the slipper still fits  
Hey, just look at how far we've come by choosing to stay  
Baby, don't go there, love don't get nowhere walkin' away It gets easier all the time  
Oh and harder and harder to leave behind We've still got it good, no matter how bad it gets  
Even after all this time, the slipper still fits  
Hey, just look at how far we've come by choosing to stay  
Baby, don't go there, love don't get nowhere walkin' away  
Baby, don't go there, love don't get nowhere walkin' away
