In Transit

Samuel Medas

They told me that if I know where I'm from.
I automatically know where i am going.
Well Either that's a lie or I'm just special.
Cause I cant find a reason why I'm sitting here between my flights.

I'm in transit and I dont know where I'm going.
I know I cant go back. I know there's nothing there for me.

I want to be where you are but I dont feel like I'm worthy.
Trying to shake my past but I dont know how to do it.
Trying to reach to you but I dont know how to get there.
Want to please your heart but I'm an expert in messing up.
Want to be where you are. (4x)

Every single day if it's not one thing its another.
The voices in my head tell me give up dont even bother
Nobody told me it's possible to lose my faith.
Nope never told me about the turns and about the waits.

I'm in transit and I dont know where I'm going.
I know I cant go back.Lord I know what ypu save me from.

I want to be close to you but I feel like I'm not worthy.
Want to shake my past but I dont know how to do it.
Want to reach to you but I dont know how to get there.
I Want to please your heart but I'm an expert in messing up.

Want to be where you are oh oh oh God
Want to be where you are.
And the shadows from my past are telling me to turn back.
The secrets from my past they get the best of me.
And I want to reach for you but I don't have the courage.
Reaching out to you.
Reaching out.

Lord I rather follow you in the darkness than to go back to my mess.
Follow you in the darkness than to go back to my sin.
Follow you in the dark,go back to my mess.
Because I dont need to know everything.
Because I taught I did for most of my life.

Until you came and open my eyes. And I can no longer love these lies.
And I dont have the answers no (3x)
But I'll follow you. I will follow you (2x)
I dont have these answers, but I know my have the answers.
I dont have these answers but I know you have these answers
So I will..follow I will follow.
I will follow you.
