

# Nothing Really

Stefy

Today's another gloomy day  
Here in L.A.  
They say it's 'cause the weather's not the same  
Feels that way And I don't want the world to change  
The world's not mine to change, can't change the world  
Don't want the world to change  
The world's not mine, it's nothing really Just spilled the can of Coke now on the carpet  
Turned it from white to gray  
Don't wanna be a cry baby  
But it's such a crying shame And I don't want the world to change  
The world's not mine to change, can't change the world  
Don't want the world to change  
The world's not mine, it's nothing really I carved a heart in a tree  
With a question mark, plus Steffie  
Who could it be, who's gonna sign that name  
And will be the one who goes all at your will Today's another gloomy day  
In L.A. And I don't want the world to change  
The world's not mine to change, can't change the world  
I don't want the world to change  
The world's not mine, it's nothing really
