Guttural Riot

Guttural Riot

We started this band with no real plans wanted to sing about crackheads it came out sick people wanted more went back to the studio to record, now I'm doin what I wanna do singing about shit I hate to all of you got stories to tell about drunkin whores guttural riot kickin down the door

We don't give a fuck what you think we play what we want and hold back nothing love us or not we will never be quiet this shit right here is guttural riot

Grew up on nofx and the misfits without punk rock I wouldn't be shit never woulda been a hipster sissy millennial scum disgusting me, Pokemon players callin me a hater, vapesmokers consider me Darth vader I don't know why they care what I think, I'm an ex drug addict who can barely sing

We don't give a fuck what you think we play what we want and hold back nothing love us or not we will never be quiet this shit right here is guttural riot

In my short life I've done a lot of things and I've seen shit you never wanna see I'm opinionated loud and rude a tattooed punk with a bad attitude

We don't give a fuck what you think we play what we want and hold back nothing love us or not we will never be quiet this shit right here is guttural riot

In a world of fakes and wannabes we stay real no apologies we can't slow down we will never stop guttural riot so cal punk rock!
