Killing Fields

The Last Internationale

You walk around with your head in the ground
You talking loud but don't make a sound
You can't speak to power in the killing field
You think that flower power will make them stop
Bang Bang Bang baby here come the cops
Power is power, love. No matter who's on top
Hush now baby you're in a killing field (Hey!)They want you to toe those party lines
They ain't got the tools
I ain't got the time
We'll take all your money and leave your children behindYou think that flower power will make them stop,
Bang Bang Bang baby here come the cops
Power is power, love. No matter who's on top (Yeah!)
Hush now baby (baby) you're in a killing fieldNow listen baby, 'cause I know it's hard
It could be Gandhi or the Son of God
Power is power no matter who's on top (ay!)
You think that flower power will make them stop
Bang Bang Bang baby here come the cops
Power is power, love. No matter who's on top
Hush now baby you're in a killing field
Hush now baby you're in a killing field
