Brain Crack

Tracy Bonham

Have you ever heard the sound?
Of your head in the ground
And you're afraid to say
And it won't go awayThat's the sound of your brain cracking
That's the sound of your brain cracking
That's the sound of your brain cracking
That's the sound of your brain crackingHave you ever heard the sound?
Of your head on the ground
And you're afraid to say
And it won't go awayThat's the sound of your brain cracking
That's the sound of your brain cracking
That's the sound of your brain cracking
That's the sound of your brain cracking
