

Brain Crack

[Tracy Bonham](#)

Have you ever heard the sound?
Of your head in the ground
And you're afraid to say
And it won't go away That's the sound of your brain cracking
That's the sound of your brain cracking
That's the sound of your brain cracking
That's the sound of your brain cracking Have you ever heard the sound?
Of your head on the ground
And you're afraid to say
And it won't go away That's the sound of your brain cracking
That's the sound of your brain cracking
That's the sound of your brain cracking
That's the sound of your brain cracking
