# 5

## Miroque

Well nothing hurts me
Like seeing you hurt
Or changed me
Like the day you went away
I know you said I was never there
You were always a good friend
I don't talk about it
I only cry when you don't see
Though I walk around it
? I felt I was to blame
I never wanted to let you down
But I couldn?t fake it
And if you think it?s better now
Soon you will see, all the ways
Did you walk in circles, hey?
Did you hurt a little more that day?
I know you said you would never wait
But you were always my best friend
I don?t talk about you
I only cry when you don?t breathe
Though I waltz around you?
? away you fell flat on your face
I never wanted to let you down
But I couldn?t fake it
And if you think it?s better now

Soon you will see, all the ways
I never wanted to let you down
But I couldn?t take it
And if you think it?s better now
Soon you will see, all the ways
5:00 a.m.
And its really early for me
I?m tired of replacing
Everyone I need
I don?t talk about you
I only cry when you don?t breathe
Though I waltz around you?
I heard your voice today

And you swear I?m not to blame
I never wanted to let you down
But I couldn?t fake it
And if you think it?s better now
Soon you will see, all the ways
I never wanted to let you down
But I couldn?t take it
And if you think it?s better now
Soon you will see, all the ways
All the ways
All the ways
All the ways
