

# Me and My Black Metal Friends

## Atom and His Package

In the mountains of Norway, where the weather is cold,  
there's nothing to do, except kill each other, and play guitars in the snow  
Corpse paint is a scary name for make-  
up it's what they wear,  
they resemble ink and dagger, if ink and dagger had long hair  
they're pretty evil, and they do not like god,  
i don't care if they burn down churches,  
but they'd better not fuckin' touch a synagouge  
i befriended them  
bye bye mom, it's now me and my black metal friends  
i befriended them  
bye bye franklin, it's now me and my black metal friends  
they have names like igor, Helthor, Angor,  
but then again, it's not exactly like "living color",  
i kinda hope they move here, so i don't have to pay import prices,  
but i kind of fear them being near me,  
because, they're not nice  
i befriended them  
bye bye mom, it's now me and my black metal friends  
i befriended them  
bye bye franklin, it's now me and my black metal friends  
come on, ilene,  
come on, ilene,  
come on, ilene,  
come on, ilene,  
come on, ilene,  
come on, ilene,  
come on, ilene!
