

# Quitter

## Carrie Underwood

Here's how it goes  
Boy meets girl, girl leaves boy  
That's all i know  
All I've done  
All my lifeCause throughout my history  
Of only being with jerks  
Who couldn't take it  
But you see the picket fence  
The swing on the front porch  
With us two on it  
When I believe  
That nothing last forever  
You stay with me  
Keeping us together  
And make me feel  
Like i never ever want to give you up  
till now  
I've always been a quitterYou rescued me  
Saved my life  
Just in time  
Saw past all my  
issues and scars  
And made me try  
Cause ohh the way your kissing me  
Makes it hard to breath  
But i still like it  
Ohh ohh it should it feels like a dream  
You know exactly  
How i want itWhen I believe  
That nothing last forever  
Stay with me  
Keeping us together  
And make me feel  
Like i never ever want to give you up  
till now  
I've always been a quitter  
I've always been a quitterWhen i believe that nothing last forever  
Stay with me  
Keeping us together

And make me feel  
Like i never ever want to give you up  
till no  
I've always been a quitter  
I've always been a quitter
