

Life in a Beautiful Light

[Amy Macdonald](#)

How do I know when Ive found my one and only
and these days of seaching are through
How do I know when you love me
as much as I love you
how do you know when your life
your life is complete
When the butterflies in your stomach
sweep you off your feet
Cos the stars in my eyes
well they twinkle when I see your face
and the butterflies keep flying
flying all over the place
and the dark and the grey
well it fades with the black and white
and all I see is life
life in a beautiful light
and all I see is life
life in a beatiful light
Nothing can prepare me
for what Im feeling right now
and nobody or nothing
is ever gonna bring me down
no rain no hail
no sleet no snow
cos the sun always shines
everywhwere I go
