Nicol Sponberg

Verse 1:
What is it like to be held in the same arms that hold the universe?
What is it like to sleep on the chest of the king of heaven and earth?
When you open your eyes and look on the face of the giver of life, the author of grace, do you know?
(Chorus)
That your days here changed everything
You're missed here and will always be
But you left here the greatest gift of all
'Cause our hearts ache for home.
Verse 2:
What is it like to breathe in and breathe out heaven's glorious light?
What is it like to be robed in perfection, no reason to cry?
When you fell on your face, your father's kiss, his welcome embrace, we prayed for this.
You should know
(Chorus)
That your days here changed everything
You're missed here and will always be
But you left here the greatest gift of all
'Cause our hearts ache for home.
Bridge:
So twinkle twinkle little star
We will keep you in our hearts
Twinkle twinkle little star
We will need you where you are
(Chorus)
Your days here changed everything
You're missed here and will always be
But you left here the greatest gift of all
'Cause our hearts ache for home.
