

# Uncle Ray Ray

## Reh Dogg

(Intro)

Uncle Ray Ray

What up Pinkey

What you about to do yo

Im about to put down some vocals to a track

Uncle Ray Ray

What up Pinkey

What type of tracks you about to lay down

Some funky ass tracks(Chorus)

What really good with my uncle Ray Ray

What really good cause this nigga

You know I dont play (4 times)(Verse)

Its like I told yall before I jerked off with my left hand

And with my right hand thats part of my plan

To take over this damn industry

What Im trying to say brah dont fuck with me

Much love and respect to my brother Pinkey brah

Welcome home when I die you will sit on my throne

I will never ever ever leave you alone we are one of a kind

Yes we think of alike two minds great minds think alike

Put heads together its troubleTheres nothing ever better than that yo when Im happy

Im real dangerous so trust stay back cause Pinkey and I

Will attack thats a fact Pinkey do me a favor go get my bat

So I can show them were Im at(Chorus)

What really good with my uncle Ray Ray

What really good cause this nigga

You know I dont play (4 times)(Verse)

What really good whats going on in this motherfucking house

Its like a struggle everyday to stay on my feet

Every time I move someone tries to stop me

I keep my head up and I keep on moving to stay alive

For all I do for the starving kids out there I cry

If I could take away my life and give it to you

I would do so in a heartbeat just to make your lifestyle

A little bit better little child thats right Im wild like a wild child

Children of the corn 1997 thats when I was born with my uncle Ray Ray(Chorus)

What really good with my uncle Ray Ray

What really good cause this nigga

You know I dont play (6times)

What really good with my uncle Ray Ray  
Yo yo uncle Ray Ray (2 times)
