Flat Foot Face

Stan SB

[Intro]
(If we're doing it all the same,
Then we'll end up the same way,
And we'll fall flat footed on our face again)Me and reality, we don't really get along.
They take my soul, I take it back and I'm told that's wrong.I guess I'll just pretend that everything is fine and everyone's friends,
Then I'll fall flat footed on my face again.Do it up now!Then we'll fall flat footed on our face again.Well me and my sanity, we've been living on the run.
What's best, what's next, just hold your breath, keep moving on.I guess I'll just pretend that everything's fine and everyone's friends.
Well raise your hands if you need more.[Chorus]
Had enough of these growing pains,
Got to do it my own way.
Scratch that got a knife in my back again.
'Cause if we're doing it all the same,
We're going to end up the same way,
Then we'll fall flat footed on our face again.They say humanity, I say humiliation.
Let's look to the past and bring it back instead of original creation.
Can't get it through my head why everything done's been done again.
Is repetition a mission?
I know you're singing at home just changing station.[Chorus]
Had enough of these growing pains,
Got to do it my own way.
Scratch that got a knife in my back again.
'Cause if we're doing it all the same,
We're going to end up the same way,
Then we'll fall flat footed on our face again.I don't understand at all,
But I'll do my best to hold my tongue,
And Oh-Ooh, you should ignore it all,
It's for your best I'm told.Me and reality, we don't really get along,[Final Chorus]
Had enough of these growing pains,
Got to do it my own way.
Scratch that got a knife in my back again.
'Cause if we're doing it all the same,
We're going to end up the same way,
Then we'll fall flat footed on our face again.
