

Enough Is Enough

Chumbawamba

[Chorus]

Open your eyes, time to wake up

Enough is enough is enough is enough

Open your eyes, time to wake up

Enough is enough is enough is enough Enough is enough is enough

Give the fascist man a gunshot

Enough is enough is enough

Give the fascist man a gunshot

Trying and trying again to get this damn thing done

It can't done

Come shoot the fascist with a gun

'Cause it's stopping us from unity

We cannot see reality

Just vanity insanity fusion cannot stand it see

No man fascist man will ever get me outta the land

So understand Fusion plan to stop them with a bang

We sang and sang to make the people all unite

Not fight but fight because the leaders don't think right

You burnt us in the past you know it won't happen again

So black and white take a stand and all try to defend

All of the people and the children who are living in the past

Just blast and blast don't make the fascist man last [Repeat chorus] On and on and on you know the feeling's so strong

So long

It's wrong

I'm telling you it's wrong

Destruction confusion and blaming it on the color

I wonder in horror 'cause the people start to follow

All the leaders and the rulers who are putting up the fence

It's dense immense and you say you're talking sense

Bull, bull I want to say it full

But people on the radio you know will make a pull

So I try to tone it down to make the whole world know

That the language of my violence will proceed in my show

Flow, flow to make the fascist man know

that unity is here and unity will grow
