Twilight

Thriving Ivory

I recall a long farewell and a time to choose
So we part like rivers baby, yeah like rivers do
But I still talk about you though and wonder
How it is your life will unfoldShow me what it looks like
Outside your window at twilight
Show me what it looks likeI recall driving home, this ain't gonna hit me till God knows when
You know I feel it in my bones and I wear it on my skin
But there ain't no use in right or wrong
A heart must go where it belongsShow me what it looks like
Outside your window at twilight
Is it me that you see dancing on a line
Singing I could be yours if you would be mine
Come on grow old with me and surely you'll seeAnd I remember thinking, that boy you must be dreaming
So hold on, hold on, before it's all gone
And I do remember thinking that your world would go on spinning
Without me now, so c'mon, c'mon pleaseShow me what it looks like
Outside you window at twilightShow me what it looks like
Outside you window at twilight, yeaYea, Show me what it looks like
Outside your window at twilight
Is it me that you see dancing on a line
Singing I could be yours if you would be mine
Show me what it looks like
Show me what it looks like
Show me what it looks like
Come on grow old with me and surely you'll seeI recall a long farewell and a time to choose
So we part like rivers baby, yeah like rivers do
