these star that doesn't lit
i'll keep it burning hard
it'll burn, it'll fight
you can't run inside
the world is sending it's soul to you

if you be the cloud
i will be the land
tired of the world in you
so tired

these star that doesn't lit
i'll keep it burning hard
it'll burn, it'll fight
you can't run inside
the world is sending it's soul to you

i don't know anything
more ever do you
but i think that like a star
you are wonderful

these star that doesn't lit
i'll keep it burning hard
it'll burn, it'll fight
you can't run inside
the world is sending it's soul to you

i finally believe it's lit as i kept running
in the dark you saw me and the smile
after time i knew it was fate with you

these star that doesn't lit
i'll keep it burning hard
it'll burn, it'll fight
you can't run inside
the world is sending it's soul to you
