Make It Last Forever

Keith Sweat

Make it last, make it last forever, dont let end our love end
Lets make it last, lets make it last forever and ever
Dont our let our love endLet me hear you tell me you love me
Let me hear you say youll never leave me
Oh, girl, that would make me feel so rightLet me hear you tell me you want me
Let me hear you say youll never leave me, baby
Until the morning lightLet me tell you how much I love you
Let me tell you that I really need you
Baby, baby, baby, I will make it all right
No one but you, baby can make me feel
The way you make me, make me, make me feelDont let our love end, just make it last forever and ever
Your touch is wonderful, your love is so marvelous
Joy, thats what I feel when Im with youNothing, no one could compare to what we have
Love, it feels so good Im so glad youre mine
Make it last forever know that I love it, make it last forever and everOh, give me kisses, love me, hold me
Squeeze me, chillin, come on
I love you, babyMake it last forever dont let our love end
You got to make it last, never, never, never let it end
Just make it last forever and everI want our love to last a lifetime
Oh, tell me, tell me youll always be mine
To make love forever and ever, weve got to make it last
Got to make it, got to make it got to make, got to make it, oh, babyOh, honey, I love you
Oh, youre the best thing in my world
The only thing in the world, I love you so
