

# Make It Last

Nicole Henry

Hold me close  
While we kiss  
Let me linger in heaven like this  
Love is often over too fast

Make it last

Let me stay in your spell  
Love is sweet so let's savour it well  
All too soon this dream will be past

Make it last

If love stays on  
My fears will fade  
and each new dawn  
I'll start with my heart unafraid

Let the flame linger low  
Let the fire burn longer and slow  
Till this moment is lost to the past

Make it last

---
