

# My Wild Love

## The Doors

My wild love went ridin', she rode all the day  
She rode to the devil and asked him to pay  
The devil was wiser, he said it's time to repent  
He asked her to give back the money she spent  
My wild love went ridin', she rode to the sea  
She gathered together some shells for her hair  
She rode and she rode on, she rode for a while  
Then she stopped for an evenin' to lay her head down  
She rode on to Christmas, she rode to the farm  
She rode to Japan and we entered a town  
By this time, the river had changed one degree  
She asked for the people to let her go free  
My wild love is crazy, she screams like a bird  
She moans like a cat when she wants to be heard  
My wild love went ridin', she rode for an hour  
She rode and she rested and then she rode on
