

# Tough Love Pt. 2

## Young L3x

Yeah,

You should touch me, you should love me  
You should come through and fuck me  
You should trust me, ignore all the rumors  
And when I call you over you should come a little sooner, yeah

You should know that imma go on dates  
You should know imma do all the things that you hate  
If you knew better you would do better  
You don't know better, you don't do better, you should know better

She said that it's over, she said that it's over that she's done with me  
She said that it's over, she said that it's over that she's done with me

Yeah

And she can't take the lies no moe  
She can't take the lies no moe  
And she can't take the games no moe  
She can't take the games no moe, no moe, no moe

She can't take the lies no moe  
She can't take the lies no moe  
And she can't take the games no moe  
She can't take the games no moe, no moe, no moe

She said "I'm broken, and my heart's no longer open and my ears have heard it all and my eyes have seen all the things that you're doing, the way that you lie to me. I know you do me dirty you cant hide from me."  
She said "I'm guarded, and won't bring down my wall. What more can you want? When I gave you all! All that I had! And all that you asked for! But you still had the nerve to sneak the bitch out the back door!  
Listen I ain't stupid and I can't make you love me, I ain't cupid, but please tell me why the hell you do this and why the hell you played me. You do me dirty like you hate me, you do me dirty now you drive me crazy, baby!"

She said that it's over, she said that it's over that she's done with me  
She said that it's over, she said that it's over that she's done with me

Yeah

And she can't take the lies no moe

She cant take the lies no moe  
And she can't take the games no moe  
She can't take the games no moe, no moe, no moe

She can't take the lies no moe  
She can't take the lies no moe  
And she can't take the games no moe  
She cant take the games no moe, no moe, no moe
