

# Grounded

## Lyres

When aid turned sideways  
And head on down the highway  
    Say, "This is my way"  
    Disappearing forever  
But there ain't just one way  
    So you choose the fun way  
        Slide down the runway  
On a ticket that goes two ways  
    And by the way that it sounded  
You thought that you'd be astounded  
    But you left it like you found it  
    'Cause it wasn't yours to take  
    What once seemed like dying  
        Soon turned into flying  
        So you settle for trying  
And you wish you were grounded  
    No you cannot get much higher  
        Than your utmost desire  
    So you bring it down to size and  
    Now it seems that you are grounded  
Grounded, grounded, grounded, grounded  
    By the way that it sounded  
You thought that you'd be astounded  
    But you left it like you found it  
    Now you find that you are grounded
