Los Angeles

Adema

Los Angeles
Shameful city
I've been taken by the world below
Los Angeles
(No!)
Here I am again
Watching the world go by
Right before my eyes
All the things I should have known
Have started to hit home
But you won't
But you won't
But you won't let go
But you won't
But you won't let go
Los Angeles
Shameful city
I've been taken by the world that's down below
Los Angeles
A flickering light casting a silhouette
Of someone I used to know
But that person is gone

I gotta try to keep tellin' myself
I got it under control
But you won't
But you won't
But you won't let go
But you won't
But you won't let go
Los Angeles
Shameful city
I've been taken by the world that's down below
Los Angeles
It's times that I remember when
I'd do it all over again
Los Angeles
Shameful city
I've been taken by the world that's down below

Los Angeles
Shameful city
I've been taken by the world below
Los Angeles
Los Angeles
Los Angeles
