

Say The Words

Usher

I had a dream when I was just a little boy
To find a girl like you
We would meet at the park after school
And talk till the day was through
Then you take me too your parents house
And I would comb your hair
And you would dream of all the cities
And places we could go

Chorus:

Oh, oh, oh

Say the words that you know I wanna hear
Put your heart up close to my ear
We don't need to know the time
We could stay till the day turns in night.
I can still remember dreams as a little boy
Now I'm man, and still can't put down my toys
Hey, hey, hey

Real love it will never come, if you in it now
But I had to learn that lesson down in the south
back to spend the night in the town just to have a little fun
In my mind I'm wishing she's the one
(I said to myself)
Is this too close to reality
For you to be that girl from that fantasy
Chorus:

Oh, oh, oh

Say the words that you know I wanna hear
Put your heart out close to my ear
We don't need to know the time
We could stay till the day turns to night.
She stole my head and let's go play the dream again
Uh, uh, to find a girl like you
(Only you and me around!)

I look into your eyes
And I see our universe
I look into your eyes
And I see our universe
Love is pure!

Chorus:

Oh, oh, oh

Say the words that you know I wanna hear

Put your heart out close to my ear

We don't need to know the time

We could stay till the days turns in night.

This is dedicated from the fire will rise

To my one and only ever love

I would never, ever, ever, ever, love again

This is dedicated to my one and only ever love

(the only girl I ever loved)

This is dedicated to my one and only ever love

(the only girl I ever loved)
