

Lost in the Shuffle

Michael Peterson

Made it through Monday, Tuesday, Wednesday

Made it to Friday night

Work week drove me out of my mind

Now it's outta sight

Got till Sunday to do things our way

Here's how it's gonna be

I'll follow you out on that floor, if you'll follow meWe're gonna get lost in the shuffle

It's gonna be an all night, hold tight, feels right now kind of scuffle

An invitation to dance on the double

Let's start a little trouble, baby let's get lost in the shuffleGonna take my chance with a little line dance

Baby put your hand in mine

Oh let me sweep you off your feet

Leave your blues behind

Every time you swing me girl you know it brings me

Two steps closer to fun

You just tell me what to do, I'll show you how it's doneWe're gonna get lost in the shuffle

It's gonna be an all night, hold tight, feels right now kind of scuffle

An invitation to dance on the double

Let's start a little trouble, baby let's get lost in the shuffleMama says baby loves shortnin' bread

But baby loves bein' with me instead

Mama wants her baby back home in bed

But let's forget about what mama saidWe're gonna get lost in the shuffle

It's gonna be an all night, hold tight, feels right now kind of scuffle

An invitation to dance on the double

Let's start a little trouble, baby let's get lost in the shuffleForget about your troubles baby

Let's get lost in the shuffle
