## Mudvayne

This is a song of what I am, a mother fucking idiot

Check it out

Through my skin you climb

To my eyes, I say goodbye

Now that you're on the inside

Blinded eyes in front of you hide

Fucked with me, I was an idiot

Fucked with me, and I haven't done shit

All about everything that I'm against

So fuck this, I don't need your shit

Life is pain and pain is my life

Life is pain and pain is my life

In your mind I was just a novelty

So does this define how you feel towards me

Do unto me what has been done to you

Feed off the pain that's been reproduced

Fucked with me, I was an idiot

Fucked with me, and I haven't done shit

I fuckin' hurt so bad now

So I think, I'll just lie down

Life is pain and pain is my life

Life is pain and pain is my life

I don't need you, I just need me

I don't believe in you, so don't believe in me

I don't need you, I just need me

I don't believe in you, so don't believe in me

Pain pain go away, come again some other day

Pain pain go away, come again some other

Wait, wait, don't wait, wait

Don't need this mother fuckin' shit, now anyway

Wait, wait, don't wait, wait

Don't need this mother fuckin' shit, now anyway

I don't need you, I just need me

I don't believe in you, don't believe in me, yeah

Life is pain and pain is my life

I don't need you, I just need me

I don't believe in you, don't believe in me
