

No Remorse

Motörhead

All men know what waits for us
Wooden box, worm and dust
Maybe Heaven, pearly gates
Hasty prayer when it's too late
Burn in hell, all is lost
Purgatory, fingers crossed
Which or who? Yours or mine?
Eternity's a long, long time
Never mind, never fail
Right this time on the nail
Never mind, never mind
Never mind, never mind
No remorse, no remorse
No remorse, no remorse
You know it well, confess it now
Christian guilt is what's allowed
Other words are heresy
Burn forever, one two three
What can you do? No guarantees
Hopeful begging on your knees
All in all, you're going down
Winged sinner or singed clown
Never mind, never fail
Right this time on the nail
Never mind, never mind
Never mind, never mind
No remorse, no remorse
No remorse, no remorse
Repent ye fool, God will hear
Christmas carol, midnight clear
Otherwise pits of fire
Punishments for base desire
Satan waits, goatee beard
Long old tail, nasty spear
If you believe these tales they tell
Then you deserve to burn in Hell
Never mind, never fail
Right this time on the nail
Never mind, never mind
Never mind, never mind
No remorse, no remorse
No remorse, no remorse
