

# More than a Million Miles

## Sugababes

You and I we belong, if we choose to get along  
Still we always bring our bullshit home  
Time is passing us by holding onto you tight  
I ain't letting go, I just want you to know You and me together, it should work  
But your mind is in another universe  
Your ambition is a thing I like to see  
Let me know, let me know if you can find some time for me How can we be strong when the road is more than a  
million miles long  
When the song is done will the love be gone?  
Or should we forget it, don't sweat it, regret it  
I ain't with it, let's quit, quit it Is it red, is it green, am I stuck in between  
It ain't black or white, just ain't feeling right  
But it ain't what it seems, can you say what you mean  
Tell me why this always happens to me You and me together, it should work  
But your mind is in another universe  
Your ambition is a thing I like to see  
Let me know, let me know if you can find some time for me How can we be strong when the road is more than a  
million miles long  
When the song is done, will the love be gone?  
Or should we forget it, don't sweat it, regret it  
I ain't with it, let's quit, quit it How can we be strong when the road is more than a million miles long  
When the song is done, will the love be gone?  
Or should we forget it, don't sweat it, regret it  
I ain't with it, let's quit, quit it Missing you lately  
All of the time we seem to do is argue  
Make up your mind, come to my yard  
Bring all the man dem the broke ass niggaz with all the fake gem Communication, that's what we need  
All the silence makes my heart bleed  
All you wanna do is sit and burn weed  
No are E S P E see T Tell me what happened to our quality time  
Every time we meet you're bringing trouble to my mind  
A good man is so hard to find  
Maybe we should dead this, come back rewind How can we be strong when the road is more than a million miles  
long  
When the song is done, will the love be gone?  
Or should we forget it, don't sweat it, regret it  
I ain't with it, let's quit, quit it How can we be strong when the road is more than a million miles long  
When the song is done, will the love be gone?  
Or should we forget it, don't sweat it, regret it

I ain't with it, let's quit, quit it  
How can we be strong when the road is more than a million miles long  
When the song is done, will the love be gone?  
Or should we forget it, don't sweat it, regret it  
I ain't with it, let's quit, quit it
