

# Start Over

## Black Tide

What a mess our lives turned out to be  
It was at its best when you and I were only 3  
We can start with all the things that turn us out  
And we can go right down the list and throw them out  
Can we start over?  
It's over  
Here you are and there's where you wanna be  
But don't think you don't have company  
Think of all the lonely people in the world  
And if it's God who made us why we so damn cruel  
We can never lie  
And you can never steal the time  
And we can only watch them die  
And we can never find out why
