Twisted Games

David Lawrence

Ready or not now
I'm coming for you
I smell your blood now
Got you in blue

Ready or not now
There's no escape
Don't struggle on here
Don't delay fate

Cause you can be waiting
Oh didn't you?
But we'll be together
Someday soon

Ready or not now?
This skin's mine to lose
So follow me lightly
Till deep dark woods

Ready or not now?
I've got my eye on you
And I watched you limping
While you thought you could

And you can turn around me
But I found you
And darling I promise
It'll be over soon
