

# The Ultra-Violence

## Death Angel

Enter her lair  
Deep in her lair  
The tension you feel  
Is burning inside  
You meet her at last  
It happened so fast  
The look in her eyes  
There's nowhere to hide  
Pain on her mind  
Eternal and blind  
Everything's black  
But you're turning white  
She knocks you down  
Whips you around  
Nothing is heard  
But your screams in the night  
Mistress of pain  
Lady of domination  
Executes her discipline  
Upon her bonded slaves  
Lashing you with her whips  
Keeping you bonded in chains  
Drool starts to seep through her lips  
Gets off on affliction of pain  
Violence in her eyes  
Insatiable lust  
Terminal mistake  
Face to face with death
