It's Been A While Since I Was Your Man

Matthew Good

Way up in that sky
I look up and I wonder
If that's you passing by
Whoa oh
It's been a while since I was your man
It's been a while since I was your man
Used to shout up from outside
Wake you when you were sleeping
Now I walk the streets, I don't recognize nobody
It's been a while since I was your man
It's been a while since I was your man
As time passed us by
We never felt like we should
We never did what we oughtta

And folks they used to smile
And now they just think that they should
They just think that they should
They think that they should
They just think that they should
We used to roll around on the floor
And get some Chinese delivered
Listen to Led Zeppelin IV
It's been a while since I was your man
It's been a while since I was your man
It's been a while since I was your man
It's been a while since I was your man
Your man
Your man
It's been a while since I was your man
Since I was your man
