

King Is White And In The Crowd

Simple Minds

Talking by the pool of light, language from America
She puts on the film of him, king is white and in the crowd
They are not a melting pot, say no, say no tapestry
She puts on the film of him, king is white and in the crowdShe takes his hand and she says you'll stay
She's lost in the crowd, king
Wire them up, fire them up, the life and times, the art and talk
Wire them up, fire them up, the life and times, the art and talkLovers run camp Africa, the bars in town are
civilized
She puts on the film of him, king is white and in the crowd
Panorama, Citylife, youth's dance proud from the waist down
She puts on the film of him, king is white and in the crowdShe takes his hand and she says you'll stay
She's lost in the crowd, king
Wire them up, fire them up, the life and times, the art and talk
Wire them up, fire them up, the life and times, the art and talkShot from where the action is, a rhapsody in black
and blue
She puts on the film of him, king is white and in the crowd
Love lies under western eyes, powerful yet transient
She puts on the film of him, king is white and in the crowdShe takes his hand and she says you'll stay
She's lost in the crowd, king
Wire them up, fire them up, the life and times, the art and talk
Wire them up, fire them up, the life and times, the art and talk[Incomprehensible]
Lost in love, lost in love
[Incomprehensible]
The life and times, the art and talk
[Incomprehensible]
