Hanging Around

Charli XCX

Help me out, I need escape
It's the truth, I got to go
With all the boys in the back I lay
And all my girls in the super store
Because we need electricity,
City lights gotta glow for me
I want more than a car, I'm a queen
So get your shit, now we got to roll!Let's go out of this town, too bored hanging around
Sky high, head in the clouds,
Never gonna come down, ooh
Drums, bass turn 'em up loud,
Free fall, spinning around
Sky high, head in the clouds,
Never gonna come downTake the car and cut the brakes,
Driving out into the dark
Even though I love my mom and dad,
I wanna swim out there with the sharks
I wanna learn to speak Japanese,
Razor-sharp on the silver screen
We were made for a limousine
So get your shit, and come with me!Let's go out of this town, too bored hanging around
Sky high, head in the clouds,
Never gonna come down, ooh
Drums, bass turn 'em up loud,
Free fall, spinning around
Sky high, head in the clouds,
Never gonna come downBlowing bubbles out in the grass
All tangled in the stars, getting faded in the back seat
You can be hanging with us,
We used to walk around the back street,
Swimming through some real heat
Fuck the dream, I want it for real!
Always make it look so easy, move into the city
Take a little sip of surreal,
We're much more than nothing,
Yeah we're all just tryin'a be who we feel!(Ooh) Throwing cake up in the air, we don't care, no
(Ooh) Surfing on a silver wave, wanna let go
(Ooh) We're so bored of being here, we don't care, no
I wanna run, be wild and free, and with my friends standing next to meLet's go out of this town, too bored

hanging around
Sky high, head in the clouds,
Never gonna come down,
Drums, bass turn 'em up loud,
Free fall, spinning around
Sky high, head in the clouds,
Never gonna come down(Hey) Ooh ah ah ooh ah ah
Hanging on hanging on
(Hey) Ooh ah ah ooh ah ah
Hanging on hanging around
(Hey) Ooh ah ah ooh ah ah
Hanging on hanging on
(Hey) Ooh ah ah ooh ah ah
Hanging on hanging around
