Good Boy Benito

Comecon

capricies of my mighty will
tells time to move or stand still
the future waiting for my commands
when I forge a total landtotal solution
total man
total life
in a total landhe who knows he goes never gets far
good boy benito runs faster than cars
upside down we can see who you are
this is what benito calls far
mighty benito is an action man
builds giant castle but builds it on sand
good boy benito bouncing his chest
but there's no way down from eagle's nestblinded by the image of me
but me ain't bad thing to see
see how sturdy I rage war
see a conquerer never seen beforemarch, motion
passion, youth, faith
march, motion
violence, lust, hatehe who knows he goes never gets far
good boy benito runs faster than cars
upside down we can see who you are
this is what benito calls far
mighty benito is an action man
builds giant castle but builds it on sand
panties down we can see what you are
good boy benito didn't get far
