

Ch-Ching

Chairlift

Ch-ching

Ch-ching

Ch-ching

Ch-ching Nobody will help you 'til you go and help yourself

Take it and don't wait for it to come from someone else I've got everything I need right here, between my hands

And there it is right in front of me...

Take a look at me

Who'd have thought I'd be

The one that got away with it

I got a way with it

They showed me a fantasy

I stole it for you and me

tripped it, switch,

flipped it, slow,

dripped it, unzipped it

I flipped it

Getting what you want can be dangerous

But that's the only way I want it to be

I double dare you to keep a secret

And pass it back under the table to me I put the stash in the bookshelf

Open your mouth and I'll slip you the key

Now catch that combination like

27-99-23

Ch-ching

Ch-ching

27-99-23

Ch-ching

Ch-ching

27-99-23

(Getting what you want can be dangerous)

Take a look at me

Who'd have thought I'd be

The one that got away with it

I got a way with it

They showed me a fantasy I stole it for you and me

Tripped it, switch,

flipped it, slow,

dripped it, unzipped it

I flipped it

Getting what you want can be dangerous
But that's the only way I want it to be I double dare you to keep a secret
And pass it back under the table to me
I put the stash in the bookshelf
Open your mouth and I'll slip you the key
Now catch that combination like
27-99-23 Ch-ching
Ch-ching
27-99-23 Ch-ching
Ch-ching
27-99-23

If nobody sees it then nobody knows
I beg for forgiveness not permission
The music ain't playing 'til you listen
Getting what you want can be dangerous
But that's the only way I want it to be
I double dare you to keep a secret
And pass it back under the table to me
I put the stash in the bookshelf
Open your mouth and I'll slip you the key
Now catch that combination like
27-99-23
Ch-ching
Ch-ching
27-99-23
Ch-ching
Ch-ching
27-99-23
Ch-ching
Ch-ching
Ch-ching
Ch-ching
