Salvation

Helloween

Sent to a world cold as steel
Don't know where else I have been
Where will I go? I can't tell
Who would save us if we fell?Can you feel what I see
In blind faith would you believe?
Don't share my point of view
But it may mean a lot to youTell me will we remember
How it used to be?
Will it be the same?In a time in the future
Will there be a different way?
Can one ever say?Anthem for a distant world
We'll be all alike
Be there 'til eternity
One will see when salvation comes our wayAll my life I was sure
Kept my thoughts real, clean and pure
Just as I will always know
We're down here to learn and growI am my own entity
And this world is there for free
Keeps me alive till that day
When my soul will find the wayIn another dimension
You may find paradise
We'll be safe and warmI've been told there'll be everyone
I held so close and dear
There will be no fearAnthem for a distant world
We'll be all alike
Be there 'til eternity
One will see when salvation comes our wayAnthem for a distant world
We'll be all alike
Be there 'til eternity
One will see when salvation comes
When salvation comes
When salvation comes our way
